

## 1998-02 Dodge Quad Cab rear bench Installation

**Step 1. Bottom/B:**  
Fold the seat bottom into the backrest using the handles under the seat. Temporarily remove the handles using a Phillips screwdriver. Use the Seat Cover Piece Identification chart to ID parts.

**Step 2. Bottom/B:**  
Tilt the bottom up and slide the seat cover on with the extending hook (sticky) fasteners on top.

**Step 3. Bottom/B:**  
Tuck the hook fasteners into the seat and mate them to the carpet under the seat as shown.

**Step 4. Bottom/B:**  
Line up the holes provided for the release handles.

**Step 5. Bottom/B:**  
Mate the hook fastener sewn inside the seat cover bottom to the carpet under the seat working from one side to the other.

**Step 6. Top/T:**  
Tilt the seat bottom part way up and tuck the seat cover over the top of the seat avoiding the child seat buckles.

**Step 7. Top/T:**  
Tuck the fabric under the plastic for the hinge on the bottom left and right side.

**Step 8. Top/T:**  
Tuck the long left and right hook straps into the seat, routing them around to the side mating them to the loop fastener sewn inside the left and right sides.
