

2002-03 Dodge Quad cab 40-60 Rear Installation

Step 1. Driver and Passenger Tops/DT&PT:

All the parts of the seat cover are printed on the inside right bottom corner. Use the seat cover part ID chart to ID parts. Lift the seat bottoms up to pull the seat away from the back wall, then connect the hook Velcro™ to the carpet that is behind the top of the seat. The cover has been updated since this picture. It now has a continuous 1 inch hook Velcro™ across the top.

Step 2. Driver & Passenger Tops/DT&PT:

Tuck the extending hook Velcro™ into the seat and connect them to the loop Velcro™ sewn on the side of the seat cover.

Step 3. Driver and Passenger Bottoms:

Tilt the seat bottoms up slightly and slide the cover on with "PB" and "DB" up. Press the hook Velcro™ to the carpet on the bottom of the seat. Note: the seat cover has been updated since this picture, the Velcro™ on the top side of the seat are now 1X3 inch extending out from the seat cover.

Congratulations, you're done

They take a decent effort to get on, but once in place, they'll stand up to any abuse you can dish out.

Thanks for the business!
